SHOPPING FOR 'NEW FEET'

A recent customer complained, "it is not my racquet, it's my feet – I need new feet!" She of course didn't need new feet, but her recently purchased 'tennis' shoes from a generic sporting goods store were causing her tennis game to go awry – because they weren't meant for tennis!

Come in and check out our shoe selections from **NIKE**. They are specifically designed for tennis. We will guide you in picking the model that's best for you & your feet.

Your feet take you where you want to go – take care of them and they'll take care of you!

BOOK REVIEW: WINNING UGLY by Brad Gilbert

Courtesy Brian Villa, Seger Park Tennis Club

Would you like to learn some techniques and tactics probably used at the Australian Open and your local courts? Then this easy-to-read book has something for you. Stressing the ability to recognize, analyze, and capitalize, Brad Gilbert, a former top tour player, provides guidance on how to beat players such as, the "pusher" or serve & volleyer. He also gives insight on the "seven hidden ad points", provides reasons why it's best to not serve first, and gives important tennis advice for before, during, and after play. Gilbert, of course, should also be remembered for coaching Andre Agassi's rise to the top, and for relating his keys to frequent victory against players such as Boris Becker & John McEnroe. In certain tennis circles and many college teams, this tome is considered a classic. Use it to your advantage!
